Reset day: pick one day each month — payday works well — to fill this in fresh. The habit matters more than getting every number exact.

The Debt Snowball Cheat Sheet

A simple, proven order for paying off debt faster — built around fastest early wins, not lowest interest first.

The method: pay minimums on everything. Throw every extra dollar at your smallest balance first. Once it's gone, roll that payment into the next one. List your debts smallest balance to largest — that order gives you the fastest early wins.

Your debts, smallest to largest

ORDER	DEBT NAME	BALANCE	MIN. PAYMENT
1	e.g. Store card	\$850	\$35
2		\$	\$
3		\$	\$
4		\$	\$
5		\$	\$
6		\$	\$

Momentum tip: every time you clear a debt, cross it off and roll its whole payment — minimum and all — straight onto the next one. The snowball gets bigger every time.
